Lawmaker lauds QC cancer care

The Philippine Star · 12 May 2025 · 5

Quezon City 5th District Councilor Alfred Vargas has reaffirmed his commitment to transforming cancer care in the city.

He said the ongoing construction of the Philippine Cancer Center (PCC) in Quezon City is a historic milestone

Vargas was the principal author of Republic Act 11215, the National Integrated Cancer Control Act, during the 17th Congress.

“The PCC is rising in Quezon City, complementing the local government’s integrated cancer control ordinance’s first year of impact,” Vargas said.

“These initiatives ensure that every resident has access to world-class cancer care,” he added.

Construction of the PCC began in March last year.
