SBECO COMMITMENT STATEMENT

We share the city's vision of a local economy that is diverse, strong and vibrant that ensures prosperity and sustainable growth for all.

Our Team will contribute to this vision by strengthening and ensuring the sustainable growth of MSMEs and Cooperatives in Quezon City. We will achieve this by facilitating livelihood skills training, developing business & entrepreneurial capabilities and providing business development services, including access to financing, to facilitate their economic activities.

We commit to deliver quality services to our clients in cooperation with various partners and in the spirit of respect, honesty and accountability.

FOREWORD

The success of last year's Inventor's Expo and Trade Fair led to the call for a subsequent edition of the Show. **The 2011 Quezon City Filipino Investor's Expo and Trade Fair** marks the continuing commitment of the City, through the inspired leadership of Mayor Herbert M. Bautista and Vice Mayor Joy G. Belmonte, to support enterprising Filipino inventors and their inventive ideas, products and processes.

The Show's theme remains to be "Linking Filipino Technology Resources and mSMEs" in the sectors of: (a) beauty, health and wellness; (b) processed foods and beverages; (c) infrastructure; and (d) environmentally sustainable products and processes for gifts, toys & housewares, handicrafts and fashion accessories.

This Show Directory is being published as part of Sikap Buhay's effort to build appropriate business resource materials to support the activities of the City's micro and small enterprises and cooperatives.
