VARIOUS government agencies have chosen Quezon City to pilot a single online platform for business registration called the Philippine Business Hub to be the epicenter of innovative reforms and game-changing improvements to programs and services that are more efficient, convenient, and time and resource-saving.

At a media briefing, Mayor Joy Belmonte introduced officials from the Anti-Red Tape Authority, Department of Information and Communications Technology, Department of Trade and Industry, and Securities Exchange Commission to launch PBH's new look with the integration of the Philippine Business Regulations Information System (PBRIS) into the platform.

The PBRIS, an ARTA-led initiative, is an online platform that provides accessible information on the Philippine Regulatory Management System and the laws and regulations that are relevant to the public.

More information on the PBH and the different types of businesses are also available on the PBH website, the mayor said.
