Increase Library Users. During the pandemic, libraries are one of the institutions that are not allowed to operate, but still, we from the QCPL, continue in serving the QCitizens through online activities. But now that we are in our New Normal, the City Library has lined up numerous projects and activities with the primary objective of bringing back the students, readers and other clients to use and have access to all the reading materials that we have and utilize all reading facilities. We have provided reading materials for home reading where children and students can borrow books using the QCID as their library card. Subscription to Online Resources and Database, Filipino Puppet Libraries for Community to bring the joy of reading and learning to children in undeserved communities, One-on-one reading tutorial to those with reading inability, Bookmobile Caravan, Inclusive Public Libraries for clients in PWD sector, eGov Services and a lot more. As of December 2022, the City Library have reached and served, two hundred thirty five thousand and twenty one (235,021), one hundred sixteen percent (116%) compared to last years’ statistic of One hundred eight thousand five hundred two (108,532)

Increase Number of Branch Libraries or Brgy. Reading Centers. In realization of RA 7743, we from QCPL continue to establish and organize mini-libraries and barangay reading centers. At present we are organizing four (4) additional branch libraries in Brgy. North Fairview, Brgy. Holy Spirit, Brgy. New Era and Brgy. Doña Imelda. From existing Twenty-one (21) branches, we will now have, Twenty-six (26) branch libraries. Still at far from the total number of One hundred forty-two (142) barangays in the city. For now, we are to put up Library Nooks in Brgy. Health Centers and Library Pop-ups in parks and playgrounds for those barangays with no established libraries, to continue provide informational, educational and recreational needs of the community.

Let me end this talk by saying, "Walang maiiwang mangmang sa Quezon City", because we will be relentless in our mission to bring the value of reading, learning and researching to all.

Thank you once again and have a blessed morning to all!

By : Carmi Joy E. Domaum

On February 18, 2023, the Quezon City Public Library launched a pop-up library at the Quezon City Memorial Circle. The event attracted 240 participants, including parents and children. The featured story was the book "Araw sa Palengke" by May Tobias-Papa, illustrated by Isabel Roxas, and published by Adarna House. The story taught kids self-discipline and exposed them to a part of the community, which is the market, or palengke. The kids were further exposed to other parts of the community via a puppet show of Chichay and Billy from the Wikaharian TV show. After the show, the parents were asked about the importance of reading. Their answer to this question was that reading is important to a child's development.

The pop-up library aims to promote literacy and the love of reading by providing easy access to reading materials and encouraging people to enjoy reading in the great outdoors. This project is especially beneficial to children, as it gives them a chance to experience the joys of visiting the library while enjoying the fresh air and beautiful scenery of the Quezon City Memorial Circle. It also aims to address the challenges of limited access to libraries and reading materials, particularly for those living in remote or underserved areas. By bringing the library to people and making reading more accessible and enjoyable, the pop-up library provides a unique solution to this problem.

Moreover, the pop-up library is an excellent opportunity for the library to reach out to the community and engage with its members. The library staff is present to assist visitors with their reading needs and answer any questions they may have. It is an opportunity for the library to promote its other services and programs to the community.

In John 14:6, Jesus said, "I am the way and the truth and the life. No one comes to the Father except through me." This powerful statement reminds us that Jesus is the only way to salvation, and it is through His Word that we can come to know Him and follow His path.

It also gave them a chance to meet new people and develop friendships with like-minded individuals. It provided an opportunity for the participants to deepen their relationship with God and develop strong bonds with others. Keeping active in a busy life
Everyone thinks about how much they need to exercise, how they would look if they were to actually begin exercising, and how much they really want to have the body of Miranda Kerr or John Cena.

However, many people still seem to remain tucked up under a blanket watching Netflix. Let’s be real — not everyone loves exercise.

Two-and-a-half hours – that is the average amount of time people spend on social media each day. Periodicals Section created an infographic on tips on cutting down on social media and the benefits for you.

If you're looking for a fun and educational way to spend a day at the park, consider visiting a pop-up library. These mobile libraries bring books and other reading materials to parks and other public spaces, making it easy for people of all ages to borrow books and enjoy them in the great outdoors. A typical pop-up library event might begin with a reading or storytelling session for young children. This is a great way for kids to learn about books and reading and to get excited about visiting the library. After the reading session, the library will open its doors, allowing visitors to browse the collection of books and borrow whatever they like.
Join us in our pop-up library tomorrow at Quezon City Memorial Circle near the enclosed playground at 9:00 a.m. See you there, kids and parents!

Sa kahilingan ni Gng. Maylene Ola-Torres, Presidente ng Samahan ng mga Manggagawa at Manininda ng Palengke ng Kamuning (SAMMPALKA), ang silid-aklatan ng Lungsod Quezon, Distrito 4, sangay ng Cubao ay nagsagawa ng pagkukwento sa mga kabataang anak ng mga manininda noong ika-14 ng Pebrero 2023. Ang ating kawani na si Gng. Rosalie Teologo ay nagbahagi ng kwento na may pamagat na "Pangako,'Wag Ipapako!" na isinulat ni Shantal Lopez, guhit ni Mark Noel O. de Pereira, at inilathala ng Sta. Teresa Publications, Inc.
Masayang nakinig ang mga bata sa kwento at sumasagot sa bawat tanong na binibigay sa kanila upang malaman kung sila ay may napulot na aral sa istorya. Pagkatapos nito ay namahagi ang mga kawani ng Sangay ng Aklatan ng Cubao ng mga Sanayang Aklat na mababasa at masasagutan nila sa kanilang mga tahanan.
Ang gawaing ito ay naglalayon na makapagbahagi ng magagandang kwento na kagigiliwan ng mga kabataan upang sila ay mahikayat at maging interesado sa pagbabasa at makapulot ng mabuting aral upang sila ay maging mabuting mamamayan ng Lungsod Quezon. Ito rin ay isang paraan upang maisulong ang mga serbisyong binibigay ng ating silid-aklatan.

You're not alone if you have trouble falling or staying asleep. Many people struggle with sleep — and that's a problem, since sleep plays a crucial role in your health, energy levels, and ability to function at your best. Most adults require seven to eight hours of sleep each night to feel well-rested and energized each day.

If restless nights have become the norm for you or you find that your sleep is not refreshing, start by observing your sleep patterns. Take note of how much you sleep each night, what factors contribute to your sleep, how rested you feel the next morning, and how sleepy you feel throughout the day.

In celebrating World Sleep Day, the Periodicals Section prepared infographics on Five Strategies to help improve your sleep.

Earthquake drills are a simple yet effective way to prepare for an earthquake and its potential consequences. It is essential for ensuring that everyone is aware of what to do in case of an
emergency so that they can act quickly and minimize the damage caused by earthquakes. By engaging in regular drills, individuals, families, and communities can become better prepared for the eventuality of an earthquake. Through these drills, people can learn how to protect themselves and their loved ones in the event of an earthquake. Additionally, they can also learn how to respond quickly and effectively when an earthquake occurs.

On March 12, 2023, the Brgy. North Fairview Council headed by Brgy. Captain Manny Chua together with QCPL-North Fairview Staff participated in the 1st Quarter Nationwide Simultaneous Earthquake Drill 2023 as mandated by the Local Government of Quezon City.
During the drill, the QCPL-North Fairview Branch ensured the safety of their clients through the Duck, Cover, and Hold. Duck down to the floor, take cover under a sturdy table or desk, and hold on until the shaking stops. Mr. Roselo Encinares led the way in going down the stairs and Ms.Trinidad Domingo and Mr. Eduardo Sabiniano ensured that no clients were left behind.

March is the month when the world celebrates women with great achievements and contributions to society in various fields, from science and technology to politics and the arts.
Every year, different organizations, institutions, and communities worldwide organize events and activities to celebrate Women's Month. These events aim to raise awareness of the challenges still faced by women today and to empower them to continue breaking through the barriers that limit their full potential and the QCPL libraries are in unity with this celebration.
Thus, the QCPL- District 5 Libraries Lagro and North Fairview branch library celebrated Women's Month last March 13, 2023, in Barangay Greater Lagro by handing out library flyers and books to the women of the community and the different organizations. Present during the event, are the strong independent women of the District 5 Libraries, led by Ms. Raquel I. Lunar (Library-in-charge) together with Mr. Bienvenido P. Ongkiko, III (OIC, Supervisor- District 5 Libraries). The library staff also gave a brief library orientation to the public, which includes the different library services offered inside and outside the library.
As we celebrate Women's Month, let us all be reminded of the importance of empowering women and creating a world where women can thrive and reach their full potential. Let us continue to work towards a world where gender equality is achieved, and women are given equal opportunities to succeed in all areas of life.
