Another batch of QC fire victims to receive financial assistance

AS Quezon City Mayor Joy Belmonte continues to follow through with her promise of quickly handing out financial assistance, she gathered—at the Quezon Memorial Circle—the 1,074 families that were affected by previous fire incidents that occurred from January to March 2019, in Barangays Commonwealth, Culiat, North Fairview, San Antonio, and Baesa.

The local chief executive vowed that this year's fire victims would be receiving the cash assistance they were supposed to receive from the previous administration, as well as to those fire victims from the beginning of her management will be receiving theirs within just three to five days after the fire.
