FOREWORD

The work of governance is formidable, especially when the leader of a nation carves a path that is anchored upon the principles of transparency and public accountability. Indeed, the road to reform and transformation is far from being well-paved.

Public awareness is a key element of governance reform in President Benigno S. Aquino III's administration. An informed public imbibes a readiness to assume the responsibilities of citizenship. When citizens become conscious of their duties and roles in community- and nation- building, they become willing volunteers and active participants in shaping their own future.

It is in this context that the Presidential Communications Operations Office, through its Bureau of Communication Services, performs its mandate to ensure that Filipinos are made aware, become well-informed, and are enabled and empowered to perform their civic duties.

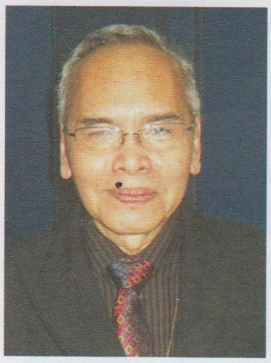
This book, fittingly entitled, UGNAY- Connecting With the People, seeks to make government publications easily accessible, so that vital information may be used by Filipinos in more productive interaction with government agencies that play a part in improving their quality of life.

We thank our colleagues in government who have helped make this compilation possible. We will pursue this initiative further in our continuing efforts to build heightened citizen awareness and civic consciousness.

Sonny Coloma

SONNY COLOMA
Secretary
PCOO

PREFACE



The Bureau of Communications Services has gone a long way since its humble beginnings. Through the years, we have been constantly active in ensuring that our citizenry gets to know about the initiatives of our government by launching forums and photo exhibits as well as printing various relevant publications. True to our stated mission, we continue to exhaust all means possible to cater to the information needs of the public. We also stand by our core vision of being a dedicated arm of the bureaucracy in providing accurate, relevant and responsible communication services in support of the Presidency.

With this in mind, we would like to commend our very own Presidential Communications Operations Office Secretary Sonny Coloma for the support and the recognition he so magnanimously gave to our Bureau for our role in keeping the people informed and empowered through relevant government information.

Notwithstanding our accomplishments, we now add another publication to rightfully cap the fruitful year. We are proud to launch *Ugnáy: Connecting with the People,* which is a list of more than 500 government publications. This publication also comes out with an equivalent digital format.

As it is, presently we do not have any such book that will help the public or any self-respecting researcher navigate through the web of available government information resources. That is why this book is of utmost importance as it will serve as an efficient locator aid for students, researchers, and the people themselves in their search for vital government information to address their various needs.

John S. Manalili
Director
BCS

INTRODUCTION

This publication, *Ugnáy: Connecting with the People,* is designed to help the public access government publications easily. It presents to the people, in one comprehensive volume, the breadth of government information resources.

Knowing that government agencies produce a wide array of information materials on a variety of topics, our Bureau head, Director John S. Manalili, initiated the production of a comprehensive list of government publications. A preliminary search revealed that, at present, the public has no central source of information about what government publications are available and where to find them. Hence, one has to actively seek information by making actual calls to or visiting the websites of each of the various government agencies. This results in missed opportunities for both government agencies and the public. Indeed, such a list would have helped the government agencies reach a wider audience on one hand and the public get accurate and concise information on the other.

Ugnáy, which means "connection" or "to connect", will ensure that government publications are known to as many people as possible and, most importantly, will ensure the peoples' access to government information.

To gather the content for *Ugnáy,* we had to conduct two surveys: the first was done to collect the profiles and cover photos of the publications of the line departments; the second was done to get the expectations of publications managers on the content, lay-out, and design of the handbook. We were fortunate that our survey respondents, composed mostly of public affairs officers, were very accommodating. But still, data-gathering took all of eight (8) months, from November 2011 to June 2012. Intervening tasks and the high number of attached agencies and bureaus made it difficult to collect the data within our desired time frame. The ensuing encoding of data and organization also entailed repeated checks for accuracy and completeness.

This volume lists more than 500 publications from the 20 government line departments including the National Economic and Development Authority and our bureau, the Bureau of Communications Services, itself. The publications are primarily grouped alphabetically by departments and sub-divided alphabetically as well by attached agencies and bureaus, with the department proper office coming first.

Ugnáy is organized in this manner: a description of the functions and logo of the departments are provided in the title page of each department grouping; while each publication entry is then presented with a photo of its cover and details about its circulation, price, frequency, language, format, page count, main audience, distribution area, delivery method, source of funding, production mode, and person- in-charge. Those publications without profiles are listed in bullet form.

Our apologies if we may have inadvertently missed to include some of the publications in this listing. Meanwhile, updates on new publications will also be disseminated regularly. We extend our apologies as well to other agencies under the Office of the President and its attached agencies, government owned and controlled organizations, and government financial institutions that sent us already their list of publications. We assure them that such will be featured in another volume which will be published next.

Ugnáy was envisioned to be our response to the need of the people to gain access to vital government information. We sincerely hope that, more than just aiding in the search for government publications, Ugnáy would be a tool to help the people to become more informed, empowered, and engaged with our government.

DEPARTMENT OF AGRARIAN REFORM

The Department of Agrarian Reform (DAR) is the lead implementing agency of Comprehensive Agrarian Reform Program (CARP). It undertakes land tenure improvement and development of program beneficiaries. DAR conducts land survey in resettlement areas. It undertakes land acquisition and distribution and land management studies. The DAR also orchestrates the delivery of support services to farmer-beneficiaries and promotes the development of viable agrarian reform communities.

Among its publications that our people can avail of are the following: *DYARYO DAR and LANDMARKS.*

DEPARTMENT OF AGRARIAN REFORM

  - Module 3: Processing of Products
  - Module 4: Livestock Production

DEPARTMENT OF AGRICULTURE

The Department of Agriculture (DA) is the principal agency of the Philippine government responsible for the promotion of agricultural and fisheries development and growth. In pursuit of this, it provides a policy framework that directs public investments and, in partnership with the local government units (LGUs), provides the support services necessary to make agriculture and fisheries, and agri-based enterprises profitable and to help spread the benefits of development to the poor, particularly those in the rural areas.

Among its publications that our people can avail of are the following: *Aggie Trends, CountryStat Philippines, El Nino (Mga Kuwento ng Pagiging Laging Handa, may El Nino man o wala), Mga Hakbang Tungo sa Masaganang Ani ng Mais, etc.*

Department of Education

The Department of Education (DepEd) shall provide quality basic education that is equitably accessible to all and lay the foundation for life-long learning and service for the common good. By 2030, DepEd shall be globally recognized for good governance and for developing functionally-literate and God-loving Filipinos.

One of its publications that our people can avail of is *EDUCNEWS*.

Department of Energy

The Department of Energy (DOE) is mandated by RA 7638 (Department of Energy Act of 1992) to prepare, integrate, coordinate, supervise and control all plans, programs, projects and activities of the Government relative to energy exploration, development, utilization, distribution and conservation.

The DOE, in partnership with its stakeholders, shall improve the quality of life of the Filipino by formulating and implementing policies and programs to ensure sustainable, stable, secure, sufficient, accessible and reasonably-priced energy.

Among its publications that our people can avail of are the following: *Energy Investment Kit and Key Energy Statistics Philippines.*

DEPARTMENT OF ENERGY (DOE)

Name	**Energy Investment Kit** As the Philippines struggles to become energy self-sufficient, the Department of Energy is offering to its investors an Energy Investment Kit annually. This kit, in detail, outlines the various investment opportunities in the country. So far, oil and gas, coal, natural gas, alternative fuels, renewable energy (geothermal, biogas, wind, ocean, and power generation. This kit also identifies areas which have been currently contracted out. Through this kit, investors are given a blueprint of the country's energy requirement and gives them an idea of where and which industry to invest in.

Department of Finance

The Department of Finance (DOF) is the government's steward of sound fiscal policy. It formulates revenue policies that will ensure funding of critical government programs that promote welfare among our people and accelerate economic growth and stability. The Department envisions that the effective and efficient pursuit of the critical tasks under its wings – revenue generation, resource mobilization, debt management and financial market development – shall provide the solid foundation for a Philippine economy that is one of the most active and dynamic in the world.

Among its publications that our people can avail of are the following: *Aduana and Annual Report 2011.*

BIR hosts 14th SGATAR Working Level Meeting on Transfer Pricing

By Lisa Bueno

FOR THE FIRST TIME since its inception in the late 1990s, the SGATAR Working Level Meeting (WLM) on Transfer Pricing was held in Manila, emphasizing the Philippines' role as one of the founding Members of the Study Group on Asian Tax Administration and Research (SGATAR) and as a developing economy of the Asian Region.

This year's WLM was held from September 3 to 5 at the EDSA Shangri-la Hotel. The Meeting was participated in by twenty-one (21) delegates from eleven (11) SGATAR Members, namely: the People's Republic of China, Indonesia, Japan, Korea, New Zealand, Singapore, Chinese Taipei, Thailand, Vietnam, and the Philippines who were represented by ACIR Marissa O. Cabreros of the Legal Service and ACIR Alfredo V. Misajon of the Large Taxpayers Service.

The Meeting was also graced by the presence of two expert observers: Mr. Wolfgang Ihatter of the Organization for Economic Cooperation and Development (OECD) and Mr. Lambert Kosters of the International Bureau of Financial Documentation (IBFD).

The SGATAR was created to serve as a forum for the discussion of a particular topic that is of special importance to the SGATAR Members. For several years now, the WLM has, by common consensus of the Members, been focused on the topic of Transfer Pricing, given the increasing complexity and scope of cross-border transactions, as well as the dramatic evolution of electronic commerce.

Audit of VAT taxpayers intensifies

By Eleonor Capili

IN THE BUREAU'S bid to improve its collection from the Value-Added Tax (VAT), a VAT Audit Program is currently being implemented covering taxpayers under the Large Taxpayers Service (LTS) and four Revenue Regions (ORs) in the Metro Manila area, namely: RR Nos. 5-Caloocan, 6-Manila (Metro Manila district offices only), 7-Quezon City and 8-Makati City.

To implement the program, Commissioner Kim S. Jacinto-Henares has issued two (2) Revenue Memorandum Orders (RMO Nos. 19-2012 and 20-2012) prescribing the coverage of audit, selection criteria and audit policies and procedures.

Per RMO No. 20-2012 issued last September 5, each of the four pilot regions shall create a VAT Audit Team to be comprised of at least twenty five (25) Revenue Officers-Assessment (including Group Supervisors), and to be headed by the Chief of the region's Assessment Division. Members of the Team will have the sole authority to audit the VAT returns of selected taxpayers filed for the 1st and 2nd Quarters of 2012 and every quarter thereafter.

The selection of VAT taxpayers for audit/investigation under the Program shall be based on the following criteria: taxpayers whose VAT compliance is below the established industry benchmarks;

Department of Justice

The Department of Justice (DOJ) serves as the government's prosecution arm and administers the government's criminal justice system by investigating crimes, prosecuting offenders and overseeing the correctional system. The DOJ, through its attached offices, is also the government's legal counsel and representative in litigations and proceedings requiring the services of a lawyer; implements the Philippines' laws on the admission and stay of aliens within its territory; provides free legal services to indigent Filipinos; and settles land disputes between and among small landowners and indigenous cultural minorities.

EMPLOYEES' COMPENSATION COMMISSION

REPORTER

Volume No. 10
Issue No. 1 for 2012

The Official Newsletter of the Employees' Compensation Commission

ECC extends assistance to ODWs

The Employees' Compensation Commission (ECC), an attached agency of the Department of Labor and Employment has provided arm prosthesis to Michael Orola, an occupationally-disabled worker (ODW), who sustained work-related injury resulting to the loss of his arms.

The ECC aims to help ODWs rebuild their lives though the Katulong at Gabay sa Manggagawang may Kapansanan (KaGabay) Program. This special economic assistance program has three components, to wit: physical restoration, which aims to restore the physical and functional capacity of the ODWs through physical and occupational therapy, skills training or re-employment, and, entrepreneurial training for small home-based business.

Orola has worked as a lineman at the Batangas Electric Cooperative in Lipa City. While performing his duties as such, he met an accident which led to the amputation of his arms.

Due to such contingency, Orola was granted a total of P74,757.93 income benefits and medical reimbursement and a monthly pension of P3,460.53 under the EC Program.

In preparation for the placement of his artificial arm, the ECC also provided for Orola's three sessions of physical therapy at the Philippine General Hospital (PGH) and electromyography-nerve conduction velocity test, a requirement preparatory to being fitted with artificial arm.

On February 29, 2012, Orola gave a courtesy call to ECC Executive Director Stella Zipagan-Banawis with his newly fitted artificial arm worth P90,000.00.

With the assistance given to him by the ECC, Orola remains optimistic and still dreams to have a productive life. Considering that his family has a sari-sari store, he also expressed his desire to take-up Entrepreneurial Training on laundry/dishwashing/detergent & fabric conditioner. In addition, he also wants to avail of the opportunity to be trained on hog and goat raising. These trainings will be given to Orola under the ECC-KaGabay Program. Orola will also be provided with starter kit to help him on his laundry and hog raising business.

Department of Tourism

The Department of Tourism (DOT) shall be the primary government agency charged with the responsibility to encourage, promote, and develop tourism as a major socio-economic activity to generate foreign currency and employment and to spread the benefits of tourism to both the private and public sector.

Among its publications that our people can avail of are the following: *Philippine Map and Destination Generic Brochures.*

With the launch of the brand new information campaign and strategies with an inviting slogan aptly called "It's More Fun in the Philippines," the DOT had packaged new and revitalized publications that will be purely promotional.

An internal information service for DTI employees

DTI holds Bantay Presyo Pa-Raffle 2012

As a run up to the Consumer Welfare Month (CWM) celebration in October and Christmas in December, the Consumer Welfare and Business Regulation Group (CWBRG) has started conducting the *Bantay Presyo Pa-Raffle 2012* since August 06. The raffle draws, being held every Monday, will run until December 17, 2012.

The program aims to heighten awareness and involvement of DTI employees by instilling consciousness in the movement of prices and expanding the database of the Price Monitoring Report.

Claobrier: Marie Camille B. Cecilio of Consumer Welfare and Business Regulation Group (CWBRG) calls the winner; representative validate the entries; Ofelia Mata Manrique of the Office of Operational Planning (OOP) signs the receiving form before claiming her prize.

To join, DTI employees have simply to drop in the box their official receipt with at least five basic necessities and/or prime commodities that the Department monitors. They have to encircle these items and label them whether they are basic necessity or prime commodity.

PHL, global investors' "darling"

The Philippines is one of the "darlings" of global investors seeking better return in emerging market economies, equities investments firm Religare Capital Markets Ltd. said. It added that the country offers even bigger potential returns in the future.

The foreign investment firm has decided to set up operations in the country within the year to take advantage of the nascent Philippine economic boom.

"The Philippines is a market where people want to put money into. The story here is certainly better than how it was a few years ago. Everyone is saying good things about the Philippines," **Religare Global Head of Equity Capital Markets John Sturmey** said.

Currently, Religare, which has a bulk of operations in India, Singapore, and Hong Kong, is experiencing challenges on China and Hong Kong – the twin darling of foreign investors over the past decades. The firm is hoping to tap new markets for banking and equity deals and now eyeing for alternative investment sites like the Philippines.

eNERCON tips

Enercon tips in clothing

Clothes play an important role in our everyday lives. We cannot leave our houses without clothing. Aside from the essential protection for the body, clothes function as a social fixture. Meaning, there are proper clothing for school, workplace, and other special events. These suggest that when a large portion of the population takes care of their clothes in a 'green' way, a large portion of energy would be conserved as well. Here are some energy conservation tips on clothes:

Run full loads whenever possible. After all, washers use about the same amount of energy regardless of the load size. Also, if possible, use an eco-friendly detergent.

Do not over-wash clothes. Delicate clothes do not take as long as dirty work clothes. In that case, it would be better to hand wash them. The extra care would not only conserve energy, but would also prolong its use.

Unless dealing with oily stains, wash clothes in cold water. Water heating consumes about 90% of the energy to operate a clothes washer, so switching the temperature setting from hot to warm can cut energy use in half. Using the cold cycle reduces energy use even more.

Hang clothes instead of using the dryer. Do this especially when the weather is warm. Air-drying clothes instead of using the machine not only saves energy, but also helps them last longer.

Do all ironing at one time and during the cooler hours of the day. This helps lessen the demand for electricity during peak hours. Excessive moistened clothes take longer to iron, so dampen them moderately. Switch off the electric iron in the last few minutes of ironing since the remaining heat will be enough to press the last few pieces of clothing.

Dress appropriately for the weather. This conserves more energy. For instance, layering one's clothing helps accommodate both cool mornings and warm afternoons.

Say yes to hand-me-downs. While shopping malls are always filled with new pieces of enticing garments, it should be always remembered that the resources are limited. Accept second-hand clothing from your family members and friends and pass forward those you can no longer use.

Donate. If there is no one to accept hand-me-downs, try donating clothes to charity. Just make sure that these are still wearable and decent. Try having a garage sale and make some money from used clothes.

Be creative. Tie-dye old shirts or cut them up and use them as rags or hair clips/hats. If you're extra talented, cut old clothes into little squares to other shapes and make a quilt or textile art out of them. Worn out clothes may still be recycled and do not have to end in the landfill.

K-9 Screeners Team
"The Third Component of Transportation Security"
By: Atty. Marie Theresa Aurel L. Salvan

Since the launching of the OTS 1st K-9 Accreditation in April of 2010, a series of meetings with the K-9 Evaluation and Detection Committee (EDEC) as well as with the Technical Evaluation Group (TEG) were held to finalize the Mechanics for level II evaluation and the Procedural Guidelines for Standard Training, Evaluation/ Accreditation, Utilization and maintenance of K-9s in the transportation system of the country. This is part of strengthening K-9s as the third component of transportation security measures and procedures in addition to the present systems of screening, human and technology/machines components.

Canine, the third components of security screening having an average of 5 Million scent cells has greater capability to detect explosives in all areas and facilities in the transportation systems. K-9 teams screening, parallel with the human and machines, is one of the effective, fast and efficient means of preventing and deterrence against acts of unlawful interference in the transportation system. Uniform and standard security measures and procedures in all types of transportation systems and facilities are the major concern in the formulation of the OTS Evaluation Mechanics Level II and the Procedural Guidelines, enjoining the members of the TEG, who came from the different government K-9 units and private K-9 providers of the country. This concerted effort of the TEG will enhance and strengthen the security capabilities of the country in general and in the transportation system in particular.

First Batch of OTS Explosive Detection K-9 Team

US Coast Guard Visit
By: Capt. Alandilo O. Mallo-en

To observe the implementation of the ISPS Code in the Philippines, A U.S. Coast Guard team composed of Lcdr Sean Kats – IPS Programs International Port Security Liaison Officer, US Coast Guard; Mr Stephen Cox-IPS Program Lawyer from Transport Security Authority (TSA); Mr. Steve Boyle – Commander, USCG (Ret), Head of delegation, also from TSA; and Mr. Anthony M. Mira, Attache, TSA Office of Global Strategies, US Embassy, Manila, visited some selected ports in Manila, Davao and Zamboanga on February 7-9 2011 to observe the implementation of the ISPS Code in the Philippines. The visit is an annual activity being conducted by the US Coast Guard in various countries.

The ports they have visited were the following: Harbor Center Port Terminal, Inc. @ Road 10, Vitas Road, Tondo, Manila; Port of Davao, Sasa, Davao City; Craft Heaven International Service, K. 15, Panacan, Davao City; and Port of Zamboanga, RT Lim Boulevard, Zone 4, Zamboanga City. Following were some of the important observations noted:

- All the port facilities mentioned above have been substantially implementing the ISPS Code except for the Port of Zamboanga. The said port has no approved Port facility Security Plan (PFSP);
- All the ports have CCTV system to monitor the critical areas within the port facilities;
- The Port facility Security Advisory Committee (PFSAC) in all ports were properly organized;
- There is good coordination among cognizant government agencies in the locality were noted; and
- Some ports need to adopt a systematic training program for their security personnel.

Administrator Lucas T. Casano, Jr. together with ADSEC Primo T. Rivera, Dir. Isidro P. Bautista, Dir. Miguel 'FV' Ortiz and ACTSD Staff welcome the US Coast Guard Team during the entrance briefing conducted inhouse OTS Boardroom.

National Economic and Development Authority

The National Economic and Development Authority (NEDA), as mandated by the Philippine Constitution, is the country's independent economic development and planning agency. It is headed by the President as chairman of the NEDA board, with the Secretary of Socio-Economic Planning, concurrently NEDA Director-General, as vice-chairman. Several Cabinet members, the Central Bank Governor, ARMM and ULAP are likewise members of the NEDA Board.

The powers and functions of the NEDA reside in the NEDA Board. It is the country's premier social and economic development planning and policy coordinating body.

Among its publications that our people can avail of are the following: *Philippine Development Plan (PDP) 2011-2016, PDP 2011-2016 Results Matrices, NEDA Annual Report and ODA Portfolio Review.*

BUREAU OF COMMUNICATIONS SERVICES

The Bureau of Communications Services (BCS), an agency under the Presidential Communications Operations Office (PCOO), shall be responsible for the development of communications services and for providing services relating to policy formulation, communication planning, project development, research and evaluation and the coordination of information planning within the framework of the overall thrusts and priorities of the National Development Plan.

BCS is committed to continuously provide Government organizations and select groups information on the President's thrusts, priorities and accomplishment through publications, networking, special events and other communications support services.

Among its publications that our people can avail of are the following: *Pamphlet on the Inaugural Speech of President Benigno S. Aquino III, Policy Statements of the President, Magna Karta ng Kababaihan, 2011 State of the Nation Address (SONA) Technical Report, Press Kits, Priority Legislative Measures of the President, etc.*
