

QC COUNCIL APPROVES BODY CAMERAS FOR QCPD

Manila Times · 28 Aug 2018 · A7

THE Quezon City Council approved a resolution introduced by Councilor Gian Carlo Sotto authorizing the procurement of 1,500 units of bodyworn camera- video for the use of Quezon City Police District (QCPD) personnel as means to enhance crime monitoring and presentation. Part of the resolution states that Quezon City as the biggest city in the National Capital Region, both in terms of area and population, has seen the increased incidence of crimes against persons and properties, hence the QCPD must be provided with necessary infrastructure to ensure the safety and well- being of its residents as well as those engaged in business, employed, or while traveling in the city.
