---

QUEZON City Mayor Herbert Bautista has approved an ordinance establishing a Leandro V. Locsin Senior High School in Barangay Kaligayahan, Novaliches, as introduced by Councilor Julienne Alyson Rae Medalla. The Leandro V. Locsin Senior High School aims to initially offer Academic and Technical-Vocational Livelihood Training tracks including Humanities and Social Sciences, General Academic Strand, Public Safety, and Animation and Illustration. Locsin was proclaimed National Artist for Architecture by President Corazon Aquino in 1990. The architectural design of Istana Nurul Iman, the palace of the Sultan of Brunei, can be attributed to him. From 1955 to 1994, he has architected 75 residences and 88 buildings, six hotels, and an airport terminal building. Locsin is also known the architect behind the design of the Cultural Center of the Philippines, Folk Arts Theater, Philippine International Convention Center, Philcote and The Westin Hotel (now Sofitel Philippine Plaza).
