

QC govt to give computer sets to police stations

Manila Times · 14 Jan 2019 · A8 · JAIME R. PILAPIL

THE Quezon City Council has passed a resolution donating new computers to four stations under the **Quezon City Police District (QCPD)**.

Councilor **Eufemio Lagumbay** said his Resolution 7491-2018 aims to enhance the documentation, communication and other services in police stations in accordance with the modernization plan of the Philippine National Police (PNP).

Quezon City Vice Mayor **Joy Belmonte** expressed support for Lagumbay's resolution, saying police precincts should start upgrading their systems to provide better services to their communities.

"We should support this kind of resolution because it is for the improvement of our police stations. We are aware that some precincts still lack computer sets that's why the city council is working on providing some for them," said Belmonte.

"These computers will help them to keep their records better and, thus, provide faster - dents," she added.

Once Lagumbay's resolution is signed by Quezon City Mayor **Herbert Bautista**, the new computers will be given to Police Station 7 in Camp Panopio, Police Station 8 at 366 P. Tuazon Boulevard; Police Station 9 in Anonas Street, Project 2; and Police Station 12 along C-5 Road, Bagumbayan, Libis.

"Hopefully, we can provide for more QCPD precincts, especially those that really need more computer sets in accordance with our objective to improve peace and order in the city," the vice mayor said.
