---

RESIDENTS of Quezon City's Barangay Sto. Domingo shall soon enjoy a new multi-purpose hall for various activities.

**Mayor Herbert Bautista** recently approved a new Quezon City Council resolution authorizing the city government to construct a multi-purpose building in the said barangay.

City Resolution 7629-2018, introduced by Councilor **Anthony Peter Crisologo**, states that two properties in the said barangay, whose total area is 1,312.40 square meters, will be utilized to establish a multi-purpose hall.

"Barangay Santo Domingo is in need of a multi-purpose building to fully operate and discharge its mandated functions," the resolution reads.

Once built, the multi-purpose hall will be used as venue for community activities and temporary shelter during emergencies.
