

# Quezon City to purchase 38 emergency rescue vehicles

THE Quezon City government is set to procure 38 new emergency rescue vehicles for the use of the 38 *barangays* (villages) in District IV as part of the city's continuing disaster and emergency response and preparedness capability upgrade.

City Resolution 7712-2019, introduced by Councilors **Marra Suntay** and **Godofredo Liban 2nd**, states that to support District 4 barangay in the performance of their duties and functions, it is

important to provide them with emergency rescue vehicles that will serve their residents.

Each rescue vehicle will be equipped with an emergency LED light bar with a siren, metal ax, plastic stretcher and blood pressure monitor.

The local government said the city's barangay are the cornerstone in maintaining peace and order in the communities, as well as first responders in times of emergencies and calamities.
