

Quezon City opens Bernardo Health Center

■ Mayor Herbert Bautista leads the opening of Bernardo Health Center building.

MAYOR Herbert Bautista led the inauguration of the Bernardo Health Center in Barangay Pinagkaisahan on May 20, as part of the Quezon City's commitment in providing quality healthcare to its residents.

The new three-story health center offers services for medical consultations, family planning, laboratory, rabies control, maternal and child care. It also has facilities for the national immunization program and

a separate room for treatment of tuberculosis and implementation of the national TB program.

"We thank Mayor Herbert Bautista for giving us this kind of facility. It's really an opportunity that during the

time of Mayor Herbert a health center was inaugurated," medical health officer Maria Celestial Lazatin said.

Bernardo Health Center is open daily from 8:00 am to 5:00 pm and can accommodate up to 50 patients a day.
