

## Belmonte forms Quezon City solid waste task force to boost service

TO PROVIDE a more comprehensive and strategic Solid Waste Collection plan, Quezon City Mayor Joy Belmonte recently ordered the creation of Task Force on Solid Waste Collection, Cleaning, and Disposal Services Management.

In her Executive Order No. 3 series of 2019, Belmonte stated the need to create

a team that will ensure the implementation of solid waste collection, cleaning, and disposal.

“It is the policy of the City to promote the preservation, protection, and revival of the ecosystem through prevention, control, and abatement of air, water, and land pollution and the spread of hazardous wastes in the environment, hand-in-

hand with the sustained development of the City,” EO 3 reads.

The task force will supervise and manage the collection and transport of solid wastes, as well as collection maintenance and continuity in the city.

Further, the group will also coordinate with the national agencies and barangays to implement solid waste

collection and management and will recommend service providers for disposal services to the city mayor.

The Secretary to the Mayor will be the chairman of the Task Force on Solid Waste Collection and the head of the Environment Protection and Waste Management Department as the vice chairperson.
