

## **80% of QC firms have not completed requirements**

Around 80 percent of business establishments in Quezon City have not yet complied with regulatory requirements for clearances, Mayor Joy Belmonte revealed on Friday. She urged the city's 70,000 business owners to immediately complete their requirements or their permits will be canceled. The city government said business owners had to comply with the requirements before January 2020. Belmonte said the move was in line with her plan to streamline all business transactions and hasten the release of permits. —MARIEJO S. RAMOS
