Importance of technology: Delivering quality education amidst pandemic

Panay News · 22 Feb 2021 · 11 · □ By Myra Tinaytayan Elementary School, Tinaytayan, Dumarao , Capiz Contributed article)

LEARNING is essential to our existence. Just like one of the basic necessities which is food that nourishes our bodies, information and continued learning nourishes our minds. Lifelong learning is an indispensable tool for every individual and organization.

As we enter the 21st century period, to day's continuous learning forms are a necessary part in acquiring critical thinking skills and discovering new ways of relating to people from different cultures. To live a life without continuous learning is unthinkable.

This is why it is important to continue learning even amidst any crisis. With all the technological advancements provided at our very own comfort, technology at its finest is being the backbone of our society.

During this time of crisis, technology has been playing a huge role in providing quality education to the Filipino learners.

For instance...

1. **TECHNOLOGY PROVIDES NOT ONLY COMFORTS BUT ESSENTIALS.** Technology has been providing learners today not only with comforts of staying at home but safety as well. It prevents everyone from getting exposed from the deadly disease while providing all the information available.
2. **COST EFFECTIVE.** The Internet improves the quality of education, which is one of the pillars of sustainable development of a nation. It is a great help especially in times of pandemic because it is affordable and cost effective.
3. **LEARNING TOOLS.** The Internet has become a major tool for effective teaching as well as a learning tool. Teachers can easily provide lectures through the internet just like videos, presentations, and the learning process becomes interesting and diverse.
