

## SM City North EDSA safety seal ceremonial awarding

The Manila Times · 15 Jun 2021 · B9

SM City North EDSA named as the first Mall in Quezon City to receive the “Safety Seal” certification through implementation and strict compliance of government mandated Covid-19 safety and health protocols.

The Safety Seal certification program is a collective effort of several government agencies namely DOLE (Department of Labor and Employment), DOH (Department of Health), DILG (Department of the Interior and Local Government), DoT (Department of Tourism) and DTI (Department of Trade and Industry) to continuously safeguard the consumers' well-being while safely reopening and boosting the country's economy.

Safe malling in SM City North EDSA can be experienced by every mall goer in every touch point, providing heightened Covid-19 health measures to its operation. Implementation of Kyusipass and other health and safety protocols are all in place. And just recently, the mall partnered with **Quezon City LGU** for a safe and convenient vaccination site against Covid-19.

Meanwhile, other SM Malls in Quezon City including SM City Fairview, SM Novaliches, SM Sta. Mesa, and Cherry Congressional also expressed their readiness for the said certification.
