

Safe shopping at SM City North Edsa

The Manila Times · 27 Aug 2021 · C3

SM City North EDSA continues to provide a safe malling experience for its shoppers by working with the **Quezon City Local Government** to vaccinating all mall frontliners and service providers under the A4 category.

And the good news is that more than 10,000 employees are now 100-percent vaccinated and partner tenants are close to reaching 100-percent in its vaccination initiatives. This vaccination campaign encourages all employees to get vaccinated and be protected against covid-19.

Earlier this year, SM City North EDSA and Quezon City government partnered for a vaccination site at Skydome to provide convenient, safe, and accessible area for the city's citizens to get vaccinated.

Currently, the mall and QC LGU opened additional vaccination sites at the Cinema Area to further expand its vaccination program. SM City North EDSA also recently rolled out its Drive-Thru Vaccination Program for people under A1, A2, A3, at A4 priority list (medical frontliners, senior citizens, persons with comorbidities and essential workers) at the Carpark Plaza, 6th Level.

“This is another product of our strong partnership with the private sector,” said **Mayor Joy Belmonte**, “This site will be convenient for those who register in groups like a family who just have to drive-thru this site while in the comfort of their cars.”

She added, “QCitizens, especially those who live busy lifestyles, please take advantage of this fast and convenient vaccine service, guaranteed to take away no more than 45 minutes of your time.”

QCitizens who don't have vaccine yet may book their COVID-19 Vaccine inthrough City government-assisted booking - QC Vax Easy (<https://tinyurl.com/QCVaxEasy>); barangay-assisted booking (<https://tinyurl.com/brgyassistedbooking>); and business registration for Covid-19 Vaccination (<https://tinyurl.com/BusinessRegforVax>).
