

QC issues Covid alert guidelines

Daily Tribune (Philippines) · 6 Jan 2022 · A8 · BY PAULA ANTOLIN

Amid the rise in Covid-19 cases, the **Quezon City government** has reminded QCitizens to practice minimum health protocols as it issued the latest guidelines for Alert Level 3.

“We call on our QCitizens to strictly follow minimum health protocols, especially now that we have the Omicron variant in our midst,” the guidelines, issued Monday, stated.

“Don’t leave anything to chance. We must prioritize our health before anything else so we must obey existing health protocols to be on the safe side,” it added.

Under the latest guidelines, mobility of unvaccinated individuals will be restricted, except when obtaining essential goods and services, such as buying food/medicine, medical appointments, vaccination, passport appointments and other appointments for government services.

They will also be allowed to go out when necessary for work in a permitted business or for individual outdoor exercise.
