

QC adopts no-contact apprehension system

Daily Tribune (Philippines) · 26 Jun 2022 · A7 · C. BALAGTAS

The no-contact apprehension program against traffic violators will be implemented by the **local government of Quezon City** starting Friday, 1 July 2022.

Under the program, road video cameras are used to record traffic violations with traffic citation tickets sent to the homes of the registered owners of vehicles caught on camera.

The policy will be enforced through Ordinance 3052 S-2021. Motorists can find out if they have traffic violations under the program through this link: <http://nocontact.quezoncity.gov.ph>.
