Quezon City Mayor Joy Belmonte on Tuesday proudly announced another landmark collaboration, this time with Jollibee Foods Corporation (JFC), one of the Philippines' leading fast-food chains.

The local government and JFC are joining forces to offer employment opportunities to more than 200 persons with disabilities (PWDs) and senior citizens in the company's Quezon City-based outlets.

The partnership marks a significant stride towards fostering inclusivity and diversity in the workforce, particularly in championing the rights and capabilities of PWDs and senior citizens.
