QUEZON City Mayor Josefina "Joy" Belmonte, through her first executive order, created an Internal Audit Service (IAS) to ensure good governance and transparency in the city. In her inaugural speech last June 30, Belmonte said the creation of an IAS is her first executive order to help her administration ensure good housekeeping. "Good governance, friends, begins with transparency and accountability. Nagsisimula ito sa pagiging bukas at tapat sa inyo ," she said. I AS will have full, free and unrestricted access to all functions, premises, assets, personnel records, inventory, and other documents and information. Belmonte said this was necessary for undertaking internal audit activities and maintaining impartiality among offices.
