MENSAHE

Maligayang bati sa pamunuang lokal at mga mamamayan ng Lungsod Quezon sa pagdiriwang ng inyong ika-59 taong Anibersaryo ng Pagkatatag sa ika- 12 ng Oktubre 1998.

Hindi lingid sa kaalaman ng lahat ang matagumpay at mabilis na pagsulong ng Lungsod Quezon na siyang nagbunsod upang ito ay maging isang primerang Lungsod sa Kamaynilaan. Sa ngayon, ito ay tahanan ng mga malalaking institusyong pangkalakal, pang- edukasyon, pampamahalaan at panlipunan, at sa pusod nito ay nakaluklok ang isang pamayanang masikap, masinop at may progresibong kabuhayan. Sa gitna nito'y makikikita natin na marami pang kailangang gawin upang lalo pang maitaas ang antas ng kabuhayan ng ating mga kababayan sa primerong Lungsod na ito.

Ang tema ng inyong pagdiriwang, "Ipagpatuloy ang Dakilang Layon…Kaunlaran ng Lungsod Quezon ay naghuhudyat ng panibagong pagsusulong ng ating mga mamamayan sa adhikaing pangkaunlaran ng ating Lungsod na para na ring sa ating bansa at bilang pagsasa alang-alang ng ating dating Pangulong Manuel Luis Quezon.

Hangad ko ang mabilis na pag-unlad ng Lungsod Quezon tulad ng inyong pangunguna sa pagsulong noong mga nakaraang limampu't siyam na taon. Sa pagdiriwang na ito, inaasahan ko na magkakaroon ng pagkakaisa ang ating mga kababayan upang ang matagal na nating inaasam na ginhawa para sa ating mamamayan ay ating nang makamit.

MABUHAY ANG LUNGSOD QUEZON!

MESSAGE

I am pleased to extend my warmest greetings and felicitations to the people of Quezon City as they celebrate the 59th Foundation Day of the City. I also express my profound congratulations to the City's officials under the competent leadership of Mayor Ismael A. Mathay, Jr. for their valuable contribution in steering the nation's premier city to greater heights.

Quezon City has gone a long way since its creation fifty-nine years ago. Envisioned by the great statesman and Philippine President Manuel Luis Quezon as a symbol and catalyst of the nation's growth and development . Quezon City now stands tall as an important center of commerce business, culture and arts, international relations, recreation and public service. In fact our people can proudly consider the City as a dynamic minute representation of the Philippines.

Quezon City has been a major player in defining the modern history of the Philippines. For this , it has earned for itself the privilege and responsibility of leading the country towards economic, political and social upliftment. As we approach the 21st century, the call for the people of Quezon City is ever relevant " Ipagpatuloy ang Dakilang Layon : Kaunlaran ng Lungsod Quezon.."

Best wishes for a meaningful celebration.

MESSAGE

I wish to convey my warmest greetings to the people of Quezon City on the occasion of its 59th Foundation Anniversary on October 12, 1998.

This year's theme, Quezon City in the Centennial of the Republic and its Entry into the 21st Century speaks highly of the city's enduring role in the historical awareness of our people in the country's independence celebration and responsible consciousness on the challenges of the new millennium . May this event further inspire your city officials to aspire for the highest ideals in achieving sustained progress for the city.

I join your community in the celebration of this special event and I place my hope that you will be bound by your unity towards your well meaning objectives for the city. Quezon City is one of the country's progressive metropolitan areas where ecological harmony balances with the continued growth of the city. May you continue becoming an exemplary model of this development as the country embraces the new country.

Mabuhay po kayo at ipagpatuloy ninyo ang inyong dakilang layon para sa Lungsod ng Quezon!

MESSAGE OF
THE HONORABLE DANTE V. LIBAN

As we celebrate the 59th Foundation Anniversary of our dear city , I join the City Government and the citizens of our community in paying tribute to the vision of President Manuel Quezon of a city that is the showcase and center of a new Philippines.

This year's celebration of our Foundation Day is doubly significant because it coincides with the Centennial of the declaration of Philippine Independence. That the Revolution of 1896 began in our dear city, at Pugad Lawin to be exact, should not be lost among us, residents of Quezon City, for we are the worthy successors of the Katipuneros who fought for independence and freedom a century ago. The struggle today, however is no longer against Colonial Spain but against the poverty and the ignorance that continues to colonize many of our fellowmen.

Our struggle today is in no means less significant or unimportant for this fight is also for the future- for better lives and conditions. I therefore join the City Government led by Mayor Mel Mathay in his declared goal of helping the poor as the most imperative agenda of development towards the next millennium.

It therefore becomes imperative for us to be equal to the challenges that we face as we move in the treshold of the new millennium; to pursue our dreams with renewed vigor and determination. We owe our people no less.

Happy Foundation Day.

DANTE V. LIBAN

OFFICE OF THE MAYOR

MESSAGE

As we celebrate Quezon City's 59th Foundation Day, we prepare for the coming of the third millenium looking at a future that, despite uncertainties, remains one that is full of promise and hope for our city and its residents.

Our theme for this year's celebration - "Paunlarin ang Lungsod Quezon sa Diwa ng Sentenyal Tungo sa Darating na Siglo" - appropriately outlines our confidence that we will be able to meet the challenges of the new millenium.

It is a confidence that stems from the fact that we have a new administration, under President Joseph Ejercito Estrada, whose main thrust is to help the free the common man from the bondage of poverty and who is convinced that we will rise from the current crisis besetting Asian nations because of the groundwork laid down by his predecessors President Corazon C. Aquino and President Fidel V. Ramos.

In last year's celebration, we launched our " bagong himagsikan" - our revolution against poverty and the degradation of the environment and our fight for the improvement of the lives of our 2.2 million city residents.

This year, we continue this himagsikan by using our past achievements and our present programs to better position ourselves to take the lead in breaking free of the shackles thrust upon us by the worldwide economic crisis.

We are now on the third consecutive term as chief executive of the country's premiere city and we are now harvesting the results of our accomplishments and efforts over the past six years in terms of how the business sector views our beloved city.

It is heartening to note that the business sector continues to support us as they look at Quezon City as a metropolis with abundant opportunities for investment.

With the momentum we have gathered through the achievements of the past six years, we now have before us the opportunity to further improve the city and we must now lay down the foundations for these projects so we will be poised to take in and fully develop the opportunities that the new millenium will offer our beloved city and our beloved country.

We must have the foresight and the initiative to be movers and doers and not just dreamers and visionaries so we can nurture our beloved Quezon City to evolve into a city we can all be proud of, a city that rightfully deserves its place as the premiere metropolis of our country.

Our problems are many and daunting but the opportunities to overcome them are within our reach. We can steer our city to greater heights but we can do so only with the cooperation and support of our residents which we have received over the years and which we know will be forthcoming in the next three years.

It is said that yesterday may just be a dream and tomorrow a vision, but, today, well lived will make every yesterday a dream of fulfillment and every tomorrow a dream of hope.

MESSAGE

A century ago, Asia's first republic came into being. The Republic of the Philippines was the result of the blood, sweat and tears of our forefathers who saw fit to give their descendants a very independent life.

The independence we gained bore another fruit. Known as Quezon City, it permanently was given a place in Philippine map fifty nine years ago this year. As a sign of its gratitude, the city gave its best to rise from obscurity until it was able to secure its proper place in local history as one of the premiere cities of the country.

On these two occasions, I would like to extend my gratitude toward all our heroes who made possible the Filipino independence and the birth of Quezon City. And to the entire Filipino nation in general and Quezonians in particular, my heartfelt congratulations for being true to the ideals of our forefathers who I am certain would have been proud knowing that all their hardships in gaining our freedom from foreign domination did not go for naught.

Let us continue reaping the fruits of independence by giving our best in all our undertakings. Let us continue showing the world that yes, Filipinos really can.

THE CENTENNIAL SPIRIT AND THE CHALLENGE TO CURRENT GOVERNANCE

"It is the Centennial Year of the declaration of our first Philippine Republic - the celebration of which has evoked for us the spirit of the past to remind us about both our cultural and historical heritage. As we struggle at the present to find our political, cultural and even economic identities, we call to mind the heroism and the struggles of our revolutionary heroes. We hope to find the inspiration that will encourage us to contend with our present struggles particularly against the spectre of the threatening economic crisis to alleviate the plight of many of our countrymen suffering from deprivation - as we try to find our global place in the sun."
