Quezon City launches *Text Basura, Text Pasok*

THE Quezon City Public Affairs and Information Services Department recently launched *Text Basura* and *Text Pasok* text messaging services for Quezon City residents.

Text Basura will serve as an easy way for residents to report or voice their complaints about garbage collection in their area. To use the service, text "Basura<space>Location, then send to 7444QC (72)."

Text Pasok, on the other hand, will let residents know if there are cancellation of classes in the city. To use the service, text "*Pasok*<space>Location, and send to 7444QC (72)."

Only Smart subscribers will be able to use the service and each text will cost users P1.

The service is provided by the city government in partnership with Smart Communications Inc.
