Atayde backs Olympic fencer

Daily Tribune (Philippines) · 23 May 2024 · A8

Quezon City First District Representative Juan Carlos “Arjo” Atayde last week pledged to back a Quezon City fencing program responsible for producing one of the Filipino athletes going to the 2024 Olympics in Paris.

According to Atayde, a member of the Youth Sports Development Committee in the House of Representatives, “fencing is one of the many sports that young Filipino athletes can excel in, and we are working with Councilor Joseph Juico so that we can help QCSEP better develop Filipino fencers who can compete not only in local tournaments, but also in international competitions.”

Atayde met Juico, the young fencers of QCSEP and their parents last 17 May at the legislator’s district office and discussed ways to help and to develop fencers not only from their district, but also cities from all over Metro Manila.
